a way forward for sustainability

windows doors & conservatories

Our range of pvc windows incorporate high quality design features with high specification security options.

pvc
windows

Diversity

All our windows are made to measure and, utilising ironmongery and glass options, can be personalised to your choice. We pride ourselves on quality and craftsmanship and our diverse pvc window range includes casement, tilt & turn and vertical sliding windows providing you with a wide variety of options to choose from.

Your Window

Choose from three unique profile styles providing you with over nine window options. All that you require is available from one company dedicated in meeting your personal needs to suit your home.

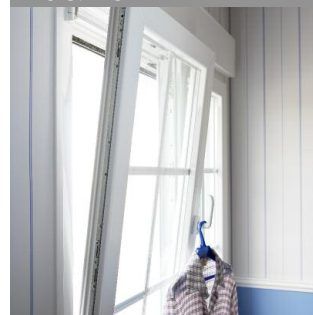

Designs

Why restrict yourself to a limited range of designs? With a completely bespoke service our products are manufactured to your personal specification with almost limitless design choice.

Open Out Casement

Tilt & Turn

Vertical Sliding

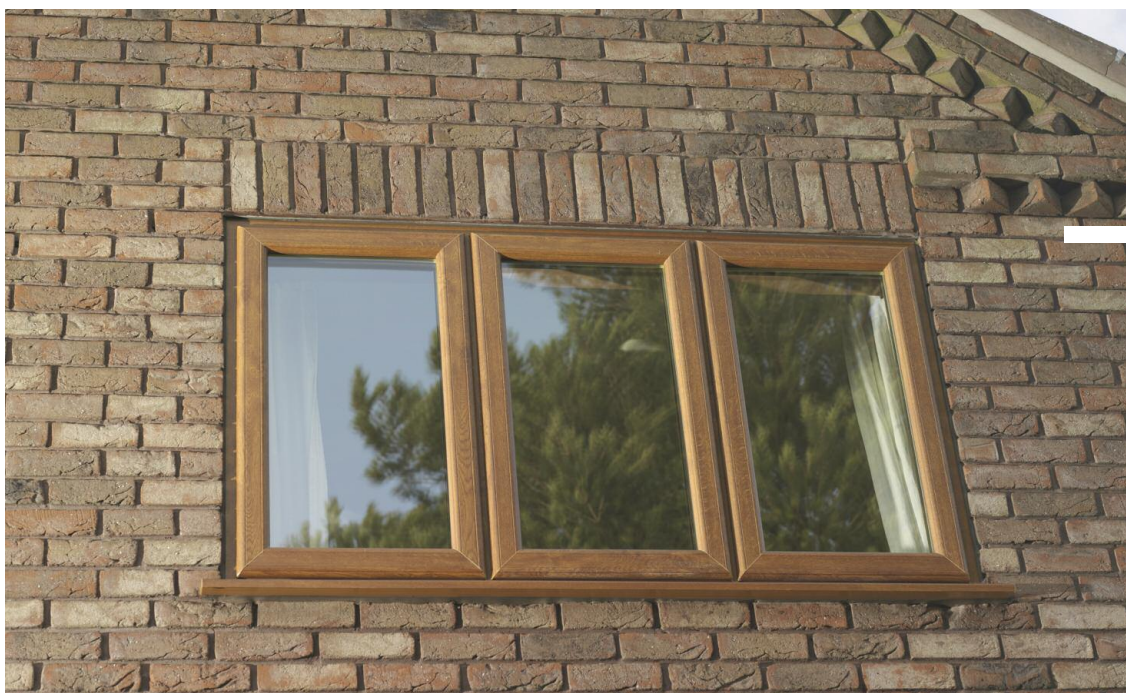

Our range of pvc windows are available with a choice of ironmongery options allowing for increased security and improved aesthetics.

pvc windows (ironmongery)

Locking System

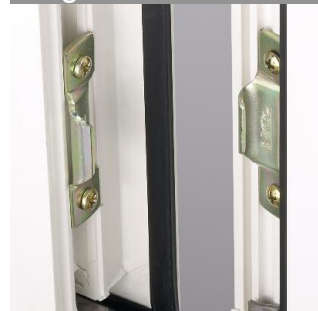

Our casement windows benefit from shootbolt and mushroom adjustable cams and our standard espagnolette achieves 500 hours salt spray corrosion resistance. Our tilt & turn window benefits from adjustable cams with loose outer allowing smooth interaction with the mushroom striker plate.

Locking Mechanism

Open Out Casement
Hinge Protector

Hinge

Our pvc window range comprises of various hinges depending on your chosen product. Our casement window hinge is stainless steel as standard with optional integral child restrictors. Additional information on our hinges is available on request.

Security

A range of security standards are available on our pvc windows. The standards include BS7950 and Secured By Design. Ask a member of the sales team for the specific security options available on your chosen style of window.

Our range of pvc doors incorporate high quality design features with high specification security options. Countless glass and panel options allow you to personalise your choice to create a statement for your home.

*pvc
doors*

Diversity

Front, back, french, patio, or bi-fold, all our doors are tailor-made to fit your individual requirements. We pride ourselves on quality and craftsmanship, leading to a diverse range of doors which are not only secure, but are designed to reflect the style of our windows ensuring continuity of image for your home.

Residential Doors

French Doors

Your Door

Choose from three unique profiles providing you with over 6 door options.

Designs

A wide variety of standard designs are available on our range of PVC doors. Additional options including; traditional arches, sidelights, fanlights and combinations are available.

Bi-Folding Doors

Our range of pvc doors are available with a choice of ironmongery options allowing for increased security and improved aesthetics.

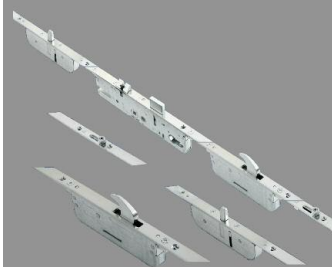

pvc doors (ironmongery)

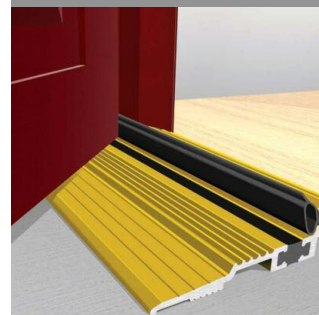

Locking System

Our residential, french and bi-folding range of pvc doors incorporate five locking points which are made up of; two hook locks, two roller cams and one deadbolt. Shootbolt is optional to residential doors and bi-fold doors but comes as standard on french doors. Our patio doors benefit from four hook locks and anti-lift stops.

Locking Mechanism

Door Threshold

Hinge

Our residential and french doors benefit from the inclusion of a robust flag hinge in which all fixing screws penetrate into the reinforcement. This can significantly decrease the chance of Door sashes "dropping" giving you peace of mind.

Security

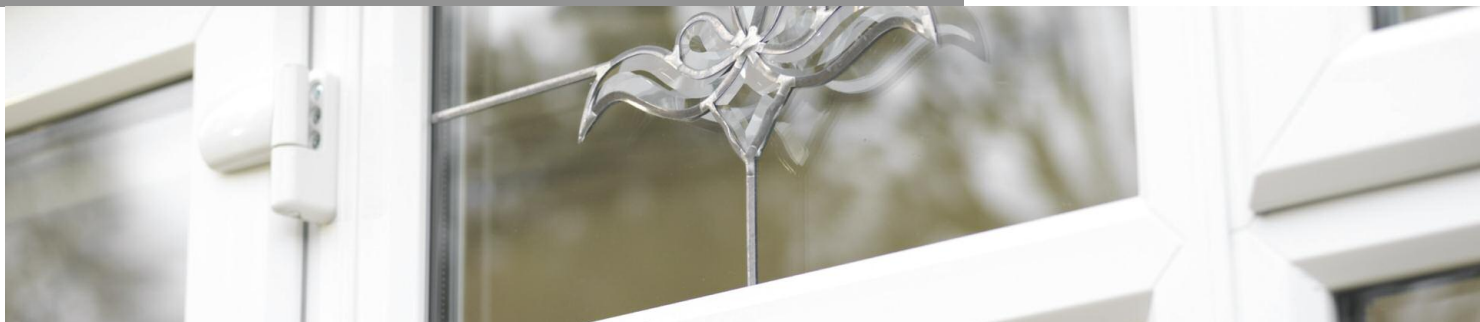

A range of security standards are available on our pvc doors. The standards include PAS 23/24 and Secured By Design. Ask a member of the sales team for the specific security options available on your chosen style of door.

Security Handle

Our range of pvc conservatories incorporate the latest advances in product design. Combining the full pvc product range, our conservatories can be used all year round with the correct combination of glazing options.

pvc conservatories

Your Conservatory

A real extension of your home and garden, the installation of a conservatory will transform the look and shape of your home whilst expanding the space you live in. Your conservatory can take the role of a lounge, dining room, games room or study. Ask our sales team for additional information.

Edwardian
Conservatories

Lean-to
Conservatories

Diversity

All our conservatories are made to measure and are designed to create a living space which seamlessly blends indoor and outdoor spaces.

Styles

With edwardian, lean-to, gable, victorian and of course bespoke conservatory styles available, we are sure to have the right solution for you.

Gable
Conservatories

Our range of pvc conservatories are available with a choice of ironmongery options. See below or consult a member of the sales team for additional information.

pvc conservatories (ironmongery)

Locking System

Our pvc conservatories benefit from the technology of our range of windows and doors. For additional information on the ironmongery options available on your chosen style of conservatory, please feel free to consult a member of the sales team.

Window Hinge Protector

Door Hinge

Choice

Choose from a wide range of profile and ironmongery colours and options. White, gold, black and chrome are just a few examples of our extensive handle colour range. Please contact our sales department for further information.

Security

A range of security standards are available on the products that make up our pvc conservatories. The standards include BS7950, Pas 23/24 and Secured By Design. Security standards vary depending on your conservatory requirements.

Door Security Handle

Our pvc windows, doors and conservatories can be supplied in a range of standard finishing options including white, rosewood and golden oak.

pvc profile standard finishes

White

The most common of all finishes, our white profile brightens any home.

White

Rosewood

Rosewood & Golden Oak

Our rosewood and golden oak profiles introduce a woodgrain effect courtesy of their highly durable foil coatings. Both finishes are available “on white” thus giving a white finish to the inside of the property and a foil finish to the outside.

Golden Oak

Peace of Mind

All our finishes come complete with a 10 year guarantee.

Our pvc windows, doors and conservatories can be supplied in a range of bespoke finishing options utilising the Deuctone colour range from Deceuninck.

pvc profile bespoke finishes

Deuctone

Designed to harmonise with its surroundings and adapt to every type of weather or light, our Deuctone range can be split into two unique product types.

Deuctone Range

Decoroc

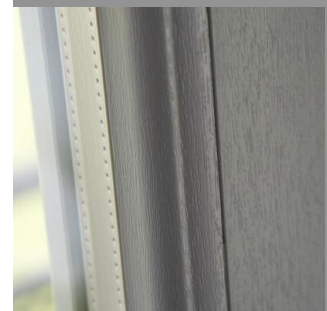

Decoroc

A matt paint finish which is unique to our industry. Applied by the profile company at their head office in Belgium, this unique finish has the durability of standard finishes.

Coloured Foil

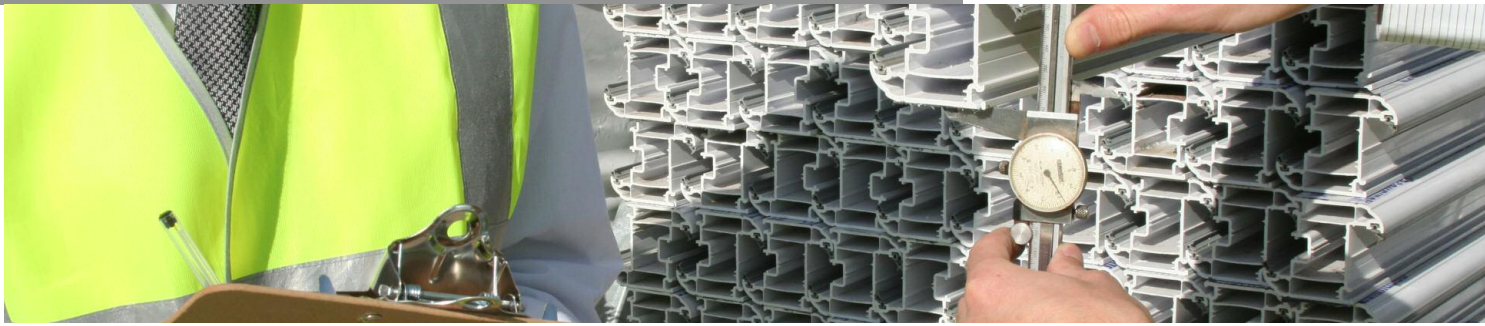

Based on the technology that developed our range of light oak and rosewood products, the coloured foil range offers a “woodgrain” effect to a colour of your choice.

Coloured Foil

Our products are accredited through a range of independent bodies demonstrating our commitment to quality, security and efficiency. This provides our customers with confidence in their long-term investment.

accreditation marks

BSI & British Standard

We operate a BSI registered quality system. Our system is audited twice a year to ensure we stay up to date with the most relevant quality management processes. All of our products meet the British Standard of BS7412.

Security

We realise the importance of the security of our products. Over the years we have achieved a range of certifications in this area. Our current range of security accreditations include:

- Secured By Design
- PAS 23/24
- BS7950

- ✓ PAS 23
- ✓ PAS 24

Energy Efficiency

Our products can be supplied with energy efficiency accreditations. Our current range of these accreditations include:

- BFRC Rating Scheme
- Energy Saving Trust Energy Saving Recommended Products

Health & Safety

Companies join CHAS to highlight that they meet contractor health and safety standards. We are committed in providing a safe working environment for both factory/office and site based staff.

FENSA & Constructionline

We are a FENSA registered company and are also registered with Constructionline, the UK's register of pre-qualified local and national construction and construction-related suppliers.

Energy efficiency plays a key role in the design and manufacture of our windows, doors and conservatories. Supplying energy efficient products allows our clients to have added peace of mind in their investment, reducing carbon footprints and providing real energy savings.

Window Energy Ratings

The Window Energy Rating (WER) labelling scheme was launched in the UK by the British Fenestration Rating Council (BFRC), a government supported independent body.

By using information contained on the label, consumers can reliably compare one product with another and make informed decisions regarding the energy performance of any given window.

Energy Saving Trust

The Energy Saving Recommended logo has been developed by the Energy Saving Trust to distinguish the most energy efficient products on the market.

The Energy Saving Trust is an independent, non-profit making organisation backed by the government. Its aim is to cut emissions of carbon dioxide (CO₂), the main greenhouse gas causing climate change, by promoting the sustainable and efficient use of energy.

Advantages:

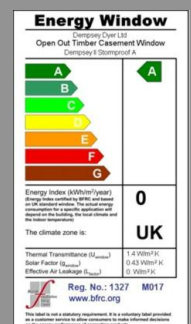

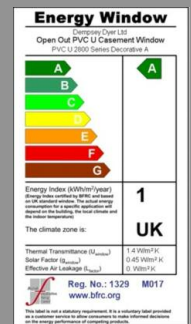

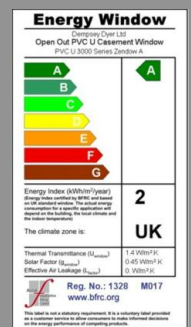

Reduce your energy bills by £9000 over 20 years for a typical semi-detached house

Save 30 tonnes of CO₂ over 20 years *

*The savings are based on replacing 15m² of single glazing in an average semi-detached house. The calculations are based on information from independently certified BFRC simulators and DEFRA, 2008 - please see www.ecoclear.org.uk for the full rationale and further calculations for alternative properties.
